DETAILED ACTION

Election/Restrictions.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claims 21-28 & 42-56, drawn to device of DRAM circuitry, classified in class 257, subclass 908.
- II. Claims 29-41 & 57-63, drawn to method of forming a field emission, classified in class 438, subclass 253.

The inventions are distinct, each from the other because of the following reasons: inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the chemical vapor deposition method can be replaced by a plasma deposition method..

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Bernard Berman on 4/24/02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Application/Control Number: 10/041,896

Art Unit: 2813

Applicant is advised that the reply to this requirement to be complete must

include an election of the invention to be examined even though the requirement be

traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected

invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by

a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Yennhu B. Huynh whose telephone number is 703-308-

6110. The examiner can normally be reached on M-F 8.30AM-7.00PM.

Any inquiry of a general nature or relating to the status of this application or

proceeding should be directed to the receptionist whose telephone number is 703-308-
